(注) ( ) 内は国内総生産に対する寄与度を表す。

Note. The Figures in ( ) indicate contributions to Changes in GDP.

※1 Changes from the previous year

※2 財貨・サービスの純輸出=財貨・サービスの輸出-財貨・サービスの輸入

Net Exports of Goods & Services = Exports of Goods & Services - Imports of Goods & Services

純輸出の寄与度は輸出と輸入の寄与度の差によって求めている。

The contribution is calculated as the contribution of Exports Less that of Imports.

## Gross Domestic Product, Third Quarter 2012 (First Preliminary)

### Technical Note:

#### (1) Main Factors of the Revision from the First Preliminary to the Second Preliminary

In the second preliminary of the third quarter 2012, new estimates based on the regular annual revision for the years 2010 and 2011 will be incorporated.

In addition to the above, in the second preliminary, the estimates of demand components of the first preliminary will be revised due to the incorporation of newly available and revised source data. The main items are as follows.

##### <Original Series>

##### ➤ Private Non-residential Investment

###### First Preliminary:

Estimated by using supply-side source data.

###### Second Preliminary:

Estimated by combining the demand- and supply-side estimates. The former is based on “Financial Statements Statistics of Corporations by Industry” (Ministry of Finance), and other sources. The latter is based on the supply-side source data. (Notice that the supply-side estimates will be revised due to the addition and the revision of source data.)

##### ➤ Private Inventory

###### First Preliminary:

As for materials and supplies inventory and work-in-progress inventory, original net increases of both nominal and real series are estimated by ARIMA models used for seasonal adjustment.

###### Second Preliminary:

Materials and supplies inventory and work-in-progress inventory will be estimated based on “Financial Statements Statistics of Corporations by Industry.” (Notice that the estimates of finished goods inventory and retail trade inventory will be revised due to the addition and revision of source data.)

##### ➤ Addition and Revision of Source Data

###### First Preliminary:

Missing source data are extrapolated. Preliminary source data are used where final data are not yet available. (In the first preliminary, source data that were available by the release of the third month’s “Balance of Payments (Preliminary)” were incorporated in

the estimation to the greatest extent possible.)

**Second Preliminary:**

The extrapolated data at the first preliminary will be replaced by actual source data if available. Revised or retroactively revised source data will be used if available. (In the second preliminary, source data that will be available by the release of the most recent “Financial Statements Statistics of Corporations by Industry” will be incorporated in the estimation to the greatest extent possible.)

<Seasonally Adjusted Series>

Due to the concurrent seasonal adjustment applied to the newest original series, the seasonally adjusted series were revised from the first quarter of 1994 to the most recent quarter.

**(2) Other Issues**

The first preliminary estimates incorporated the following revision in source data in addition to the regular update of source statistics.

➤ Incorporation of the Retroactive Revision in the Basic Source Data

The revisions in the basic source data were incorporated as follows.

| Revised source data  | Revised periods in the preliminary estimates | Date released  | Affected components in the preliminary estimates |
|--|--|----------------|--|
| Corporate Service Price Index                                | From January-March 2011                      | September 2012 | Deflators and Supply-side estimates              |
| Corporate Goods Price Index                                  | From January-March 2011                      | October 2012   | Deflators and Supply-side estimates              |
| Current Survey of Production                                 | From January-March 2011                      | October 2012   | Supply-side estimates                            |
| Monthly Economic Report on Land Infrastructure and Transport | From January-March 2011                      | October 2012   | Supply-side estimates                            |
