Net Exports of Goods & Services = Exports of Goods & Services - Imports of Goods & Services

純輸出の寄与度は輸出と輸入の寄与度の差によって求めている。

The contribution is calculated as the contribution of Exports Less that of Imports.

※3 含む非居住者家計の国内での直接購入

Including Direct Purchases in the Domestic Market by Non-Resident Households

※4 含む居住者家計の海外での直接購入

Including Direct Purchases Abroad by Resident Households

Gross Domestic Product, Second Quarter 2016 (Second Preliminary)

Technical Note:

(1) Main Factors of the Revision from the First Preliminary to the Second Preliminary

In the second preliminary, the estimates of demand components of the first preliminary is revised due to the incorporation of newly available and revised source data. The main items are as follows.

<Original Series>

➤ Private Non-residential Investment

First Preliminary:

Estimated by using supply-side source data.

Second Preliminary:

Estimated by combining the demand- and supply-side estimates. The former is based on “Financial Statements Statistics of Corporations by Industry” (Ministry of Finance), and other sources. The latter is based on the supply-side source data.

➤ Private Inventory

First Preliminary:

As for work-in-progress inventory and materials and supplies inventory, original net increases of both nominal and real series were estimated by ARIMA models used for seasonal adjustment.

Second Preliminary:

Work-in-progress inventory and materials and supplies inventory are estimated based on “Financial Statements Statistics of Corporations by Industry.”

➤ Addition and Revision of Source Data

First Preliminary:

Missing source data were extrapolated. Preliminary source data were used where final data had not yet been available. (In the first preliminary, source data that were available by the release of the third month’s “Balance of Payments (Preliminary)” were incorporated in the estimation to the greatest extent possible.)

Second Preliminary:

The extrapolated data at the first preliminary is replaced by actual source data if available. Revised or retroactively revised source data is used if available. (In the second preliminary, source data that is available by the release of the most recent “Financial Statements Statistics of Corporations by Industry” is incorporated in the estimation to the greatest extent possible.)

<Seasonally Adjusted Series>

Due to the concurrent seasonal adjustment applied to the newest original series, the seasonally adjusted series are revised from the first quarter of 1994 to the most recent quarter.

(2) Other Issues

- Estimation for supply-side estimates and demand-side estimates used in the estimation process of the private non-residential investment in the Second Preliminary of April-June 2016

In the Second Preliminary of April-June 2016, the rate of changes from the previous quarter for original nominal series of supply-side estimates, used in the estimation process of the private non-residential investment at April-June 2016, is estimated as ▲5.3% with the information used for the supply side basic statistics, also, the rate of changes from the previous quarter for original nominal series of demand-side estimates is estimated as ▲30.2% using “Financial Statements Statistics of Corporations by Industry” etc..

- Estimation for changes in private inventories by type in the Second Preliminary of April-June 2016

Estimation for changes in private inventories by type (seasonally adjusted series) in the Second Preliminary of April-June 2016 is estimated as follows.

(Billions of Chained (2005) Yen)

	2015/ 4-6	7-9	10-12	2016/ 1-3	4-6	Contributions to Changes in Real GDP at 2016/4-6 (%)
changes in private inventories	2479.3	2283.7	1507.3	998.9	1330.0	0.1
Finished goods	828.4	215.6	176.8	▲ 213.4	▲ 454.8	▲ 0.0
Work-in-progress	▲ 324.9	▲ 4.7	142.5	▲ 893.6	37.9	0.2
Materials and supplies	763.3	864.5	323.5	322.0	362.3	0.0
Wholesale and retail trade	1165.7	1131.7	843.5	1719.3	1326.3	▲ 0.1

- Estimation for work-in-progress inventory and materials and supplies inventory in the First Preliminary of July-September 2016

With the information used for the Second Preliminary of April-June 2016, the seasonally adjusted real series of work-in-progress inventory and material and supply inventory in the First Preliminary of July-September 2016 is estimated as ▲201.5 billion yen (the difference from the previous quarter; ▲238.7 billion yen) for work-in-process inventory and 132.9 billion yen (the difference from the previous quarter; ▲233.1 billion yen) for material and supply inventory.

Please be noted that these series are not continuous with the real seasonally adjusted series before April-June 2016 in the Second Preliminary of April-June 2016, since the figures above are estimated by applying seasonal adjustment to the original series including July-September 2016, which are estimated from the ARIMA model. In addition, there is a case in which these estimations about July-September 2016 is revised since the series up to April-June 2016 is revised by the revision of basic statistics in the First Preliminary of July-September 2016.

- Changes of estimation methods to reflect the influence on the Kumamoto earthquake in 2016
Second Quarter 2016 estimates is based on the following method to reflect the influence on the Kumamoto earthquake in 2016.

- Changes of estimation methods for Quarterly Estimates of GDP of April-June 2016 (July 28, 2016) (in Japanese)

<http://www.esri.cao.go.jp/jp/sna/data/reference1/siryu/2016/pdf/announce20160728.pdf>

- Incorporation of the 2015-base revision of Consumer Price Index(CPI)

The 2015-base revision of CPI, which was released in August, 2016 by the Ministry of Internal Affairs and Communications, will be incorporated in the Quarterly Estimates of GDP (QE) from the First Preliminary of July- September 2016, which will be released on November 14, 2016.

- Incorporation of the 2015-base revision of Consumer Price Index (CPI) (August 31, 2016) (in Japanese).

<http://www.esri.cao.go.jp/jp/sna/data/reference1/siryu/2016/pdf/announce20160831.pdf>

Announcement:

➤ **The release schedule of the Quarterly GDP (QE)**

The first preliminary of July-September, 2016:

8:50 A.M. JST, Monday, November 14, 2016.

The second preliminary of July-September, 2016:

8:50 A.M. JST, Thursday, December 8, 2016.

The first preliminary of October-December, 2016:

8:50 A.M. JST, Monday, February 13, 2017.

The second preliminary of October-December, 2016:

8:50 A.M. JST, Wednesday, March 8, 2017.

The above schedule may be changed due to, among other possible reasons, changes in the release dates of source statistics.
