Figure 4: Gini coefficient by sampling weight 1988-2009
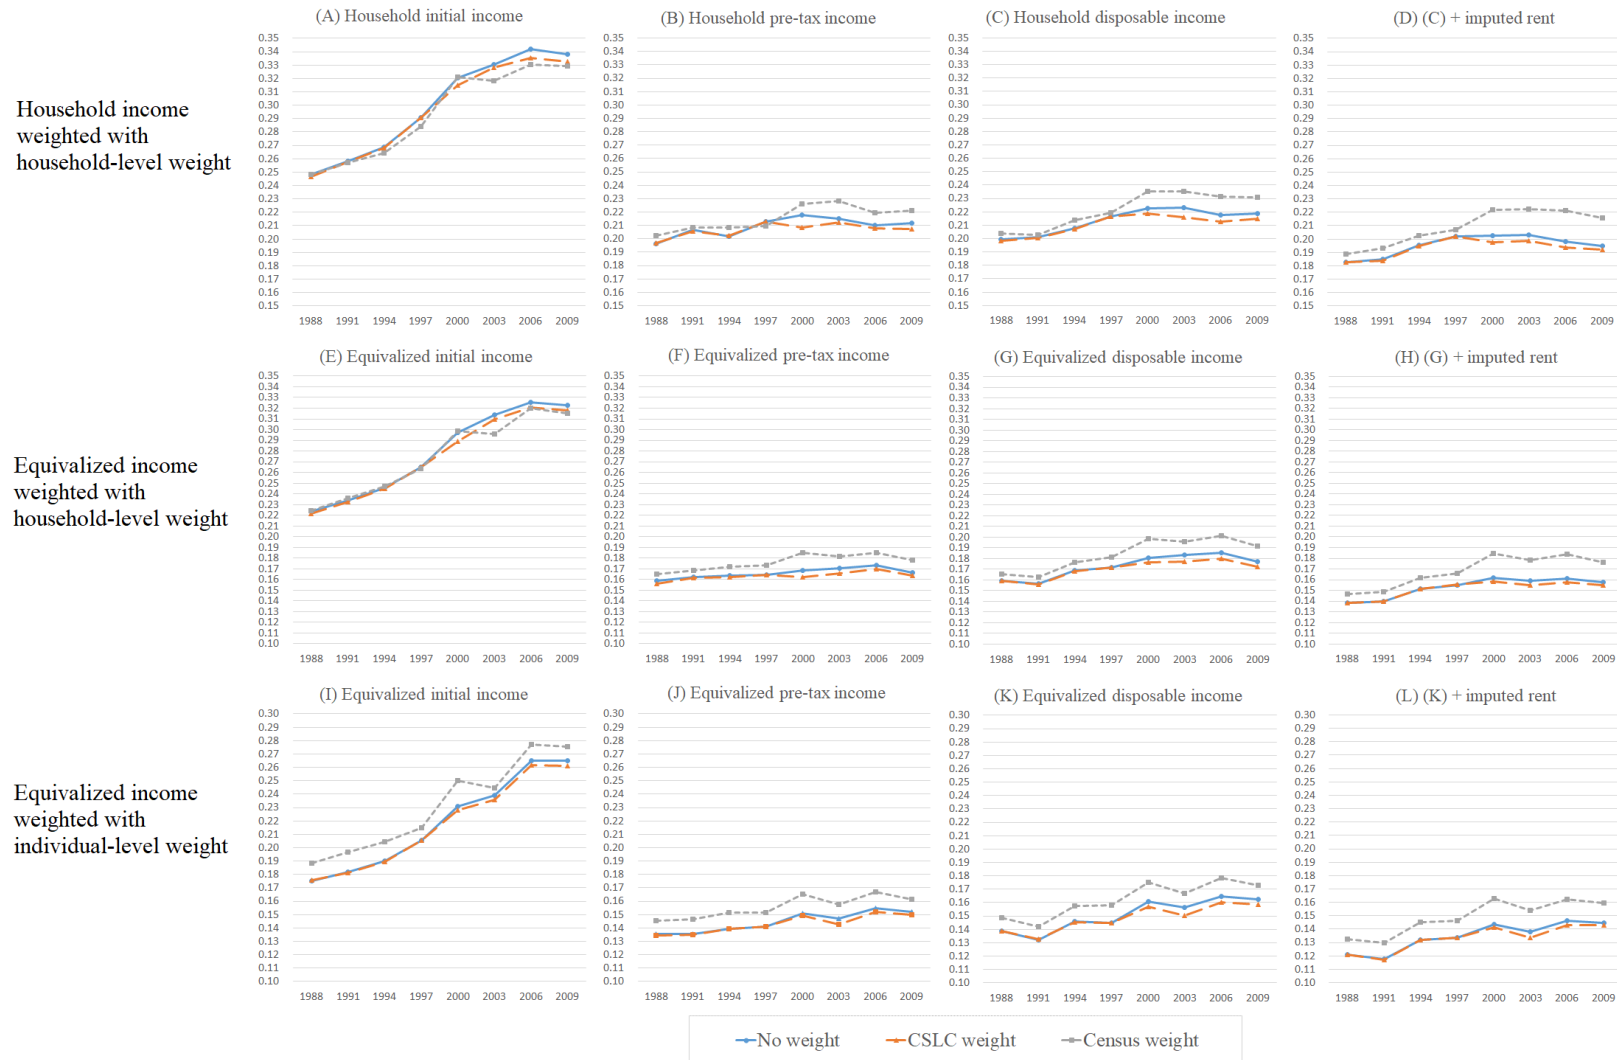

Figure 5: Relative poverty rate by sampling weight 1988-2009

Household income weighted with household-level weight

(A) Household initial income

(B) Household pre-tax income

(C) Household disposable income

(D) (C) + imputed rent

Equivalized income weighted with household-level weight

(E) Equivalized initial income

(F) Equivalized pre-tax income

(G) Equivalized disposable income

(H) (G) + imputed rent

Equivalized income weighted with individual-level weight

(I) Equivalized initial income

(J) Equivalized pre-tax income

(K) Equivalized disposable income

(L) (K) + imputed rent
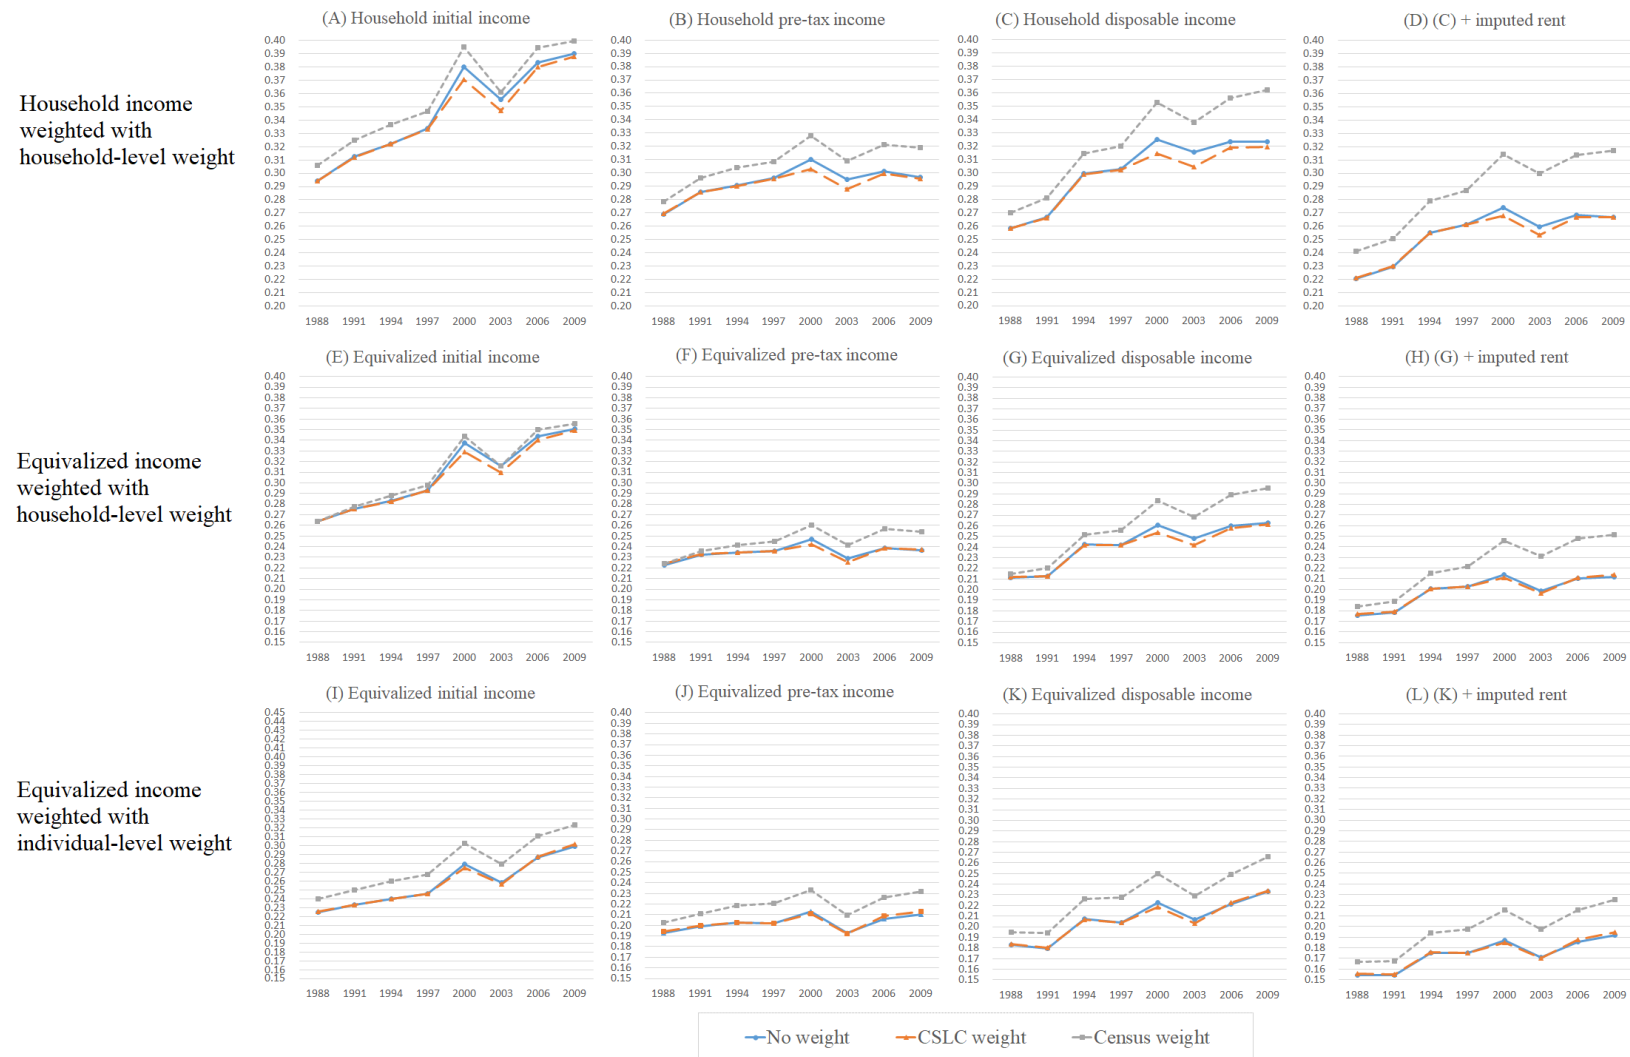

No weight ── CSLC weight ── Census weight
